

Design Advance- Summary

- Aditya Kumar
Chief Technology Officer, edwisor.com

We will cover with the following concepts

- 1) Summary

Few important points

- You can create 80% of designs across web pages only if you apply the elements that you learn correctly
- Although you are free to use the special classes that come with bootstrap, try to keep text related classes to your own control
- We will learn about the JQuery side of things once we use Bootstrap elements in our next skill i.e JQuery

Coming up next

- JQuery Basic
- JQuery Advance
